Welcome to D Zambelis

Over 25 Years of Excellence in the Stone Industry

Founded in 1996, D Zambelis has been a leading supplier within the stone industry. Our main aspects cover stone tooling, new machinery, aftercare and CAD/CAM software training. We provide high-quality products and services to fabricators across the UK and Ireland. Our expertise includes:

Tooling & Consumables – Diamond cutting, grinding, polishing, adhesives, chemicals, and CNC tooling.

Stone Processing Machinery – including bridge saws, edge polishers, CNC machines, lifting & handling equipment.

DDX EasyStone CAD Software & Training – Industry-leading CAD solutions with expert training for seamless workflow integration.

Machinery Aftercare & Support – Comprehensive servicing, maintenance, and technical assistance to keep your machines running efficiently.

We are the official UK agents for Italian machinery manufacturers including

Achilli Srl – Secondary saws & machinery

CMG – Edge polishers

Dal Forno – Lifting & handling equipment

Italmec – Water recycling & air purification

OMAG S.p.A. – 5, 6 & 7 Axis CNC machines

Terzago Macchine – Primary & secondary saws

OVER £300

CONTACT OUR SALES OFFICE
FOR INFORMATION ON
DISCOUNTS AND PRICES

DAMAGED GOODS MUST BE
NOTIFIED IN WRITING WITHIN
3 DAYS OF DELIVERY DATE

FOR PRICES PLEASE CALL: 01621 742577
OR EMAIL: SALES@DZAMBELIS.CO.UK

Prices are subject to VAT at current rate

We reserve the right to change prices without prior notice

For information on discounts and net prices please contact our sales office

All goods remain the property of D. Zambelis until paid for in full

Free delivery on all orders over £300 ex. VAT carriage charge on smaller orders

Photos are for illustrative purposes

Damaged goods must be notified in writing within 3 days of delivery date. Otherwise no claim can be entered

D. Zambelis reserves the right to levy charges under the late payment of commercial debts act (1998) for all late and overdue payments

Due to the nature of some products, returns are down to the discretion of management.

All safety papers for certain products are available upon request

Experience the D Zambelis Showroom

At D Zambelis, we believe that the best way to appreciate the quality and precision of our machinery and tools is to see them. Our showroom offers a hands-on experience, allowing you to explore our extensive range of stone machinery, tooling, and accessories up close.

Why Visit Our Showroom?

Expert Guidance

Our knowledgeable team is on hand to offer tailored advice and recommendations based on your specific project needs.

Extensive Product Range

From CNC machines to diamond tooling, we showcase a comprehensive selection of industry-leading products.

Whether you're looking to upgrade your machinery or explore new solutions for your workshop, our showroom is the perfect place to start. Visit us at our Essex location and discover how D Zambelis can support your business with the highest quality equipment and expertise.

Guidance

D Zambelis Academy – Expert Training for Stone Fabricators

At D Zambelis, we don't just supply industry-leading machinery – we empower fabricators with the knowledge and skills to use them effectively.

The D Zambelis Academy offers specialist CAD/CAM software training designed to help stone professionals maximise their efficiency, precision, and productivity.

Our hands-on training courses are tailored to meet the needs of both beginners and experienced users, ensuring that you can confidently program and operate CNC machinery using advanced CAD/CAM software. Whether you're looking to refine your techniques or introduce digital fabrication to your workshop, our expert trainers will guide you every step of the way.

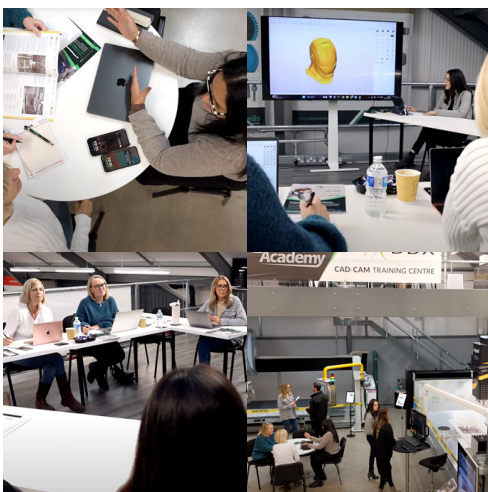

Available in one-to-one or group format

In-House in Essex or On-Site in Factory

Covers Basic 2D Drawing to Advanced 3D Modeling

What You'll Gain from Our Training:

Master CAD/CAM Software

Learn how to design, program, and optimise projects for CNC stone machinery.

Hands-On Learning

Get practical experience using real-world applications.

Boost Productivity

Discover best practices to streamline your workflow and reduce waste.

Industry Expertise

Learn from experienced professionals who understand the challenges of stone fabrication.

Segmented Laser-Welded Granite Blade

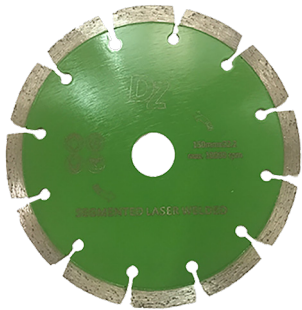

Designed for fast, precise cutting of hard granites, this high-performance blade ensures durability and smooth operation on grinders.

DIAM 125mm - BORE 22.2mm

DIAM 150mm - BORE 22.2mm

DIAM 230mm - BORE 22.2mm

Product Code: 101

Segmented Laser-Welded Granite & Quartz Blade

High-performance blade for fast, precise granite and quartz dry cutting.

DIAM 125mm - BORE 22.2mm

DIAM 150mm - BORE 22.2mm

DIAM 230mm - BORE 22.2mm

Product Code: 102

Turbo Continuous Rim Granite & Quartz Blade

Designed for fast and clean cutting on granite and quartz. Specialised designed with side spokes to avoid jamming in the stone.

DIAM 125mm - BORE 22.2mm

DIAM 150mm - BORE 22.2mm

Product Code: 103

Supreme Turbo Continuous Rim Granite & Quartz Blade

New generation turbo cutting blade. Designed for fast and clean cutting on granite and quartz. Specialised designed with side spokes to avoid jamming in the stone.

DIAM 125mm - BORE 22.2mm

DIAM 150mm - BORE 22.2mm

DIAM 125mm - M14 Thread

Product Code: 525

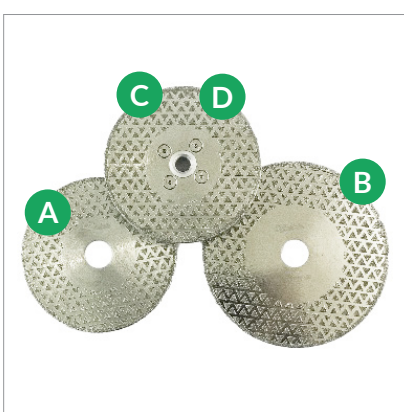

Vanity Blade for Granite & Quartz

Premium quality, specially made for grinding granite and quartz.

DIAM 125mm - M14 THREAD

Product Code: 104

Electroplated Vanity Marble Blades

Popular electroplated blade for cutting and grinding common marbles and limestones.

TYPE A – DIAM 125mm DOUBLE SIDED - BORE 22.2mm

TYPE B – DIAM 150mm DOUBLE SIDED - BORE 22.2mm

TYPE C – DIAM 125mm SINGLE SIDED - M14 THREAD

TYPE D – DIAM 125mm DOUBLE SIDED - M14 THREAD

Product Code: 105

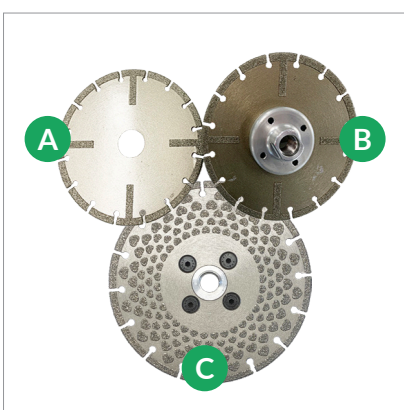

Electroplated Cutting Marble Blade

Electroplated continuous rim blade for cutting common marbles and limestones.

DIAM 125mm - BORE 22.2mm

Product Code: 106

Premium Electroplated Vanity Marble Blades

Premium electroplated blades for Marble & Limestone. Gives clean cut with no chippings. Made with the highest quality and concentration of diamonds to be used with hard and delicate marbles, such as Crema Marfil, Botticino, etc.

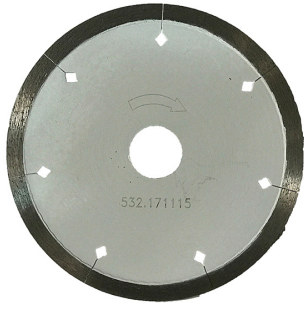

TYPE A – DIAM 125mm - BORE 22.2mm

TYPE B – DIAM 125mm - M14 THREAD

TYPE C – DIAM 125mm - M14 THREAD - HEARTS

Product Code: 227

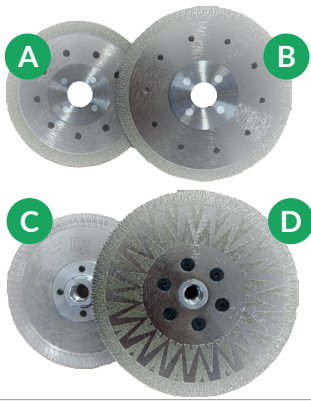

Thin Blade for Granite & Quartz

Perfect for making small thin cuts and for joint opening
–Blade thickness is 1.5mm

DIAM 125mm - BORE 22.2mm

Product Code: 107

Odyssey Blade

A unique fast dry cutting blade with side spokes, suitable for granite, quartz, Dekton and other porcelains.

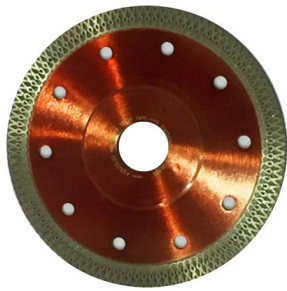

TYPE A – DIAM 125mm - BORE 22.2mm

TYPE B – DIAM 150mm - BORE 22.2mm

TYPE C – DIAM 125mm - M14 THREAD

TYPE D – DIAM 150mm - M14 THREAD

Product Code: 226

Cutting Blade for Porcelain

Turbo cutting blade, designed specially to be used on Dekton, and other porcelains.

DIAM 125mm - BORE 22.2mm

Product Code: 108

Vacuum Brazed Vanity Blade

Vanity blade designed for dry and wet cutting and grinding granite, quartz, Dekton and other porcelains.

DIAM 125mm - M14 THREAD

Product Code: 223

Concave Blades

Blades designed for creative curves, such as vanity sinks.

TYPE A	SINTERED FOR GRANITE - BORE 22.2mm
TYPE B	ELECTROPLATED FOR MARBLE - BORE 22.2mm

Product Code: 109

Vanity Cobra Blade

For cutting straight edges, curves and apertures. Can also be used for chamfering and side grinding, to be used on granite and quartz

DIAM 125mm - DOUBLE SIDED - M14 THREAD
--

Product Code: 248

Diamond Cup Wheel

For fast stock removal and grinding on granite and quartz

DIAM 100mm - GRIT COARSE - M14 THREAD
DIAM 100mm - GRIT MEDIUM - M14 THREAD

Product Code: 111

Vacuum Brazed Grooving Wheels

Wheels for making drainer grooves. Suitable to be used on granite quartz, marble and porcelains. Available in two sizes - 10mm (Radius 5) and 12mm (Radius 6). Diameter 100mm with bore 22.2mm connection

Radius 5 - GRIT 30/40	Radius 6 - GRIT 30/40
Radius 5 - GRIT 100	Radius 6 - GRIT 100
Radius 5 - GRIT 200	Radius 6 - GRIT 200

Product Code: 112

Premium Electroplated Core Drills For Marble

Premium electroplated core drill for marble & limestone. Gives clean drilling with no chippings. Made with the highest quality and concentration of diamonds and suitable to be used with hard and delicate marbles such as Crema Marfil, Botticino, etc.

MEM Master 3500 – Edge Profiling Router & Conversion Unit

MEM Master 3500 – Edge Profiling Router with Water Gliding System, including Conversion Unit

Master 3500 is a portable electric contouring machine with a “WATER SYSTEM” baseboard which creates a gliding water film between the machine and the slab.

This system immediately eliminates the stone pieces broken during the working without scratching the surfaces.

It is a variable speed control to be able to adjust the rotation speed of the profiling wheels turn thus allowing you to adapt it to each and every type of work –

Variable shaft speed: rpm 2800/5600

Safety electrical conversion unit MEM3000 – 220v or 380v constructed according to the international safety regulations.

MEM Master 5000 – Contouring machine with Water Gliding System, including Conversion Unit

Advanced Technology: Combines traditional robustness with cutting-edge innovations.

Enhanced Functionality: Capable of shaping, drilling, polishing, and cutting with superior precision.

Brushless Motor: More energy-efficient, durable, and reliable.

Motorized Z-Axis: Improved usability and precision with parameter display.

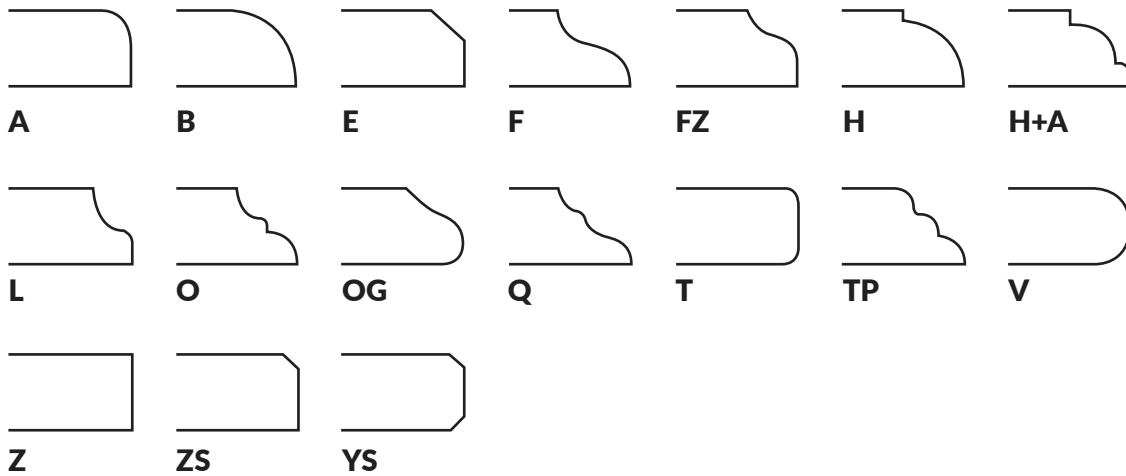

Speed controller: More operational precision in RPM and Z-Axis speed.

Safety: Operates at 48 volts, ensuring maximum safety even in humid environments.

Versatility: Works with multiple voltages (110V and 220V) and includes a quick release system and water system plate.

Profile Wheels For Semi-Automatic Profiling Machines

STANDARD PROFILES

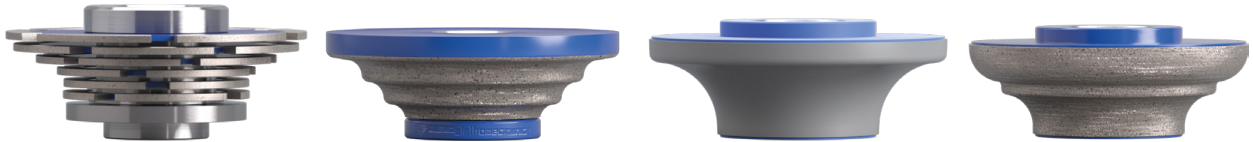

Profile Wheels For Semi-Automatic Profiling Machines

Complete set for all steps of the polishing process for MASTER, GHINES and other machines.
These wheels can be mounted on all manual machines, that employ rotating touchers with M8 or M10 touchers
Wheels with internal holes available upon request

Granite & Quartz

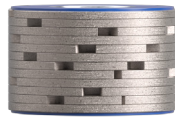

Available for stone thickness

Built for Precision: Bridge Saws

Whether you're cutting stone for kitchens, bathrooms, or bespoke architectural projects, our Bridge Saws offer the accuracy, reliability and efficiency modern workshops demand. At D Zambelis, we supply a carefully selected range of high-performance bridge saws from leading European manufacturers – trusted for their robust construction, advanced technology, and smooth operation.

OMAG

5 AXIS - DIGITALE

The OMAG Digitale 5 is a compact 5-axis CNC bridge saw designed for precision cutting, drilling, and shaping of stone materials like granite, marble, and porcelain. With a tilting worktable, powerful 18 kW spindle, and intuitive touchscreen control, it offers advanced automation features—including slab scanning and vein matching—for efficient, high-quality fabrication in any workshop.

TERZAGO MACCHINE

MACHINERY FOR STONE PROCESSING AND COMPLETE LINES

4 AXIS - CUTE 36/625

The Terzago CUTE 36/625 is a compact 4-axis CNC monoblock bridge saw engineered for precision stone cutting. It accommodates blades up to 625 mm, offering a cutting depth of 200 mm, with a 360° rotating head and 90° manual tilt for versatile operations. Equipped with high-inertia brushless motors and a 15 kW spindle controlled via inverter, it ensures smooth, accurate cuts. Its user-friendly touchscreen interface and space-efficient design make it ideal for workshops seeking advanced functionality without compromising on footprint.

Achilli

EVOLUTION IN STONE TECHNOLOGY

4 AXIS - GOLD

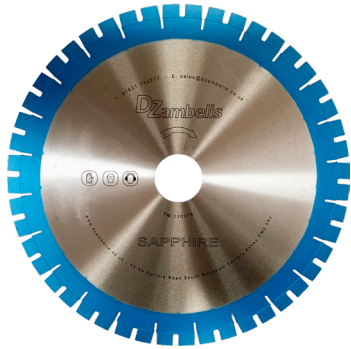

The Achilli GOLD is a versatile 4- or 5-axis CNC bridge saw designed for precise cutting of stone, ceramic, and composite slabs. Its monoblock structure allows for easy installation without the need for a foundation. The machine features automatic 360° head rotation and a tilting blade from 0° to 90°, enabling complex cuts and profiles. Equipped with a 15 HP motor, a user-friendly 12" touchscreen interface, and options for drilling and milling, the GOLD offers both fully automatic and semi-automatic operation modes, making it ideal for workshops seeking efficiency and flexibility.

Also available in electroplated

Product Code: 503

PCD Carving Tool

For carving granite & quartz

Shank 10mm Connection

DIAM	RADIUS
10mm	60°
10mm	90°
10mm	120°
15mm	90°

Product Code: 502

Drainboard Wheels

Diameter: 130-200mm

Groove Size: 12mm, 15mm

Connection: Bore 30mm, 40mm+6

Material: Granite, Marble & Quartz

Product Code: 504

Drainboard Metallic Grooving Mills

For making drainer grooves on granite & quartz

1/2" Gas Connection

DIAM	RADIUS	POSITION
12mm	6mm	G1
12mm	6mm	G3
12mm	6mm	G4
12mm	6mm	G5

Also available in Diameter
15mm - Radius 7.5

Product Code: 505

Stubbing Wheels - Turbo

Suitable for granite and quartz

DIAM	HEIGHT	CONNECTION
50mm	20mm	14mm 3+3
92mm	20mm	50mm 3+3

Product Code: 512

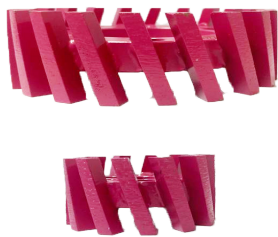

Stubbing Wheels - Electroplated

Suitable for marble, limestone and sandstone

DIAM	HEIGHT	CONNECTION	POSITION
50mm	20mm	10mm 2+2	Pos 0
50mm	20mm	14mm 3+3	Pos 00
85mm	20mm	50mm 3+3	Pos 00

End cup for Stubbing Wheel 85 x 20mm

Product Code: 509

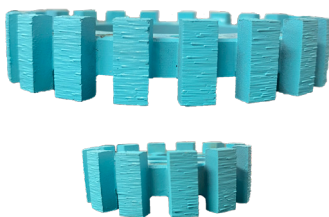

Stubbing Wheels for Dekton and other Porcelains

Suitable for milling Dekton, Laminan and other porcelains

DIAM	HEIGHT	CONNECTION
54mm	28mm	14mm 3+3
91mm	28mm	50mm 3+3

Product Code: 508

Stubbing Wheels for Natural Quartzite

Suitable for milling natural quartzites, such as Taj Mahal, Amazonite & Macaubas

DIAM	HEIGHT	CONNECTION
50mm	20mm	14mm 3+3
88mm	20mm	50mm 3+3

Product Code: 506

Smarter Stone Processing: CNC WORKCENTERS

Take your production to the next level with our advanced CNC Workcentres, designed for high-precision, multi-function stone fabrication. Ideal for workshops producing detailed edge profiles, cut-outs, drainers, and shaping work, our CNC Workcentres deliver speed, accuracy, and repeatability – all while reducing manual handling and improving workflow.

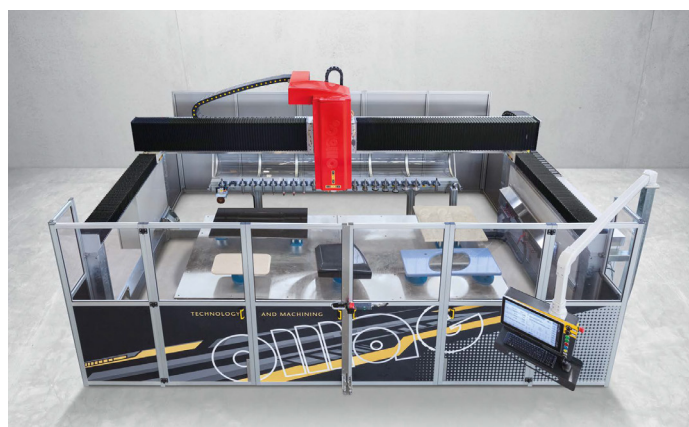

DIGIMILL & MILL4 is the 4-axis numerical control machining center that groups all the functions of a multifunctional machining center in a single system.

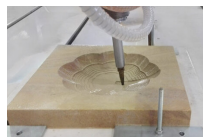

DIGIMILL & MILL4 is a highly productive machine both when mass production is required and for unique and original pieces.

The high speed of the movement of the axes is ensured by brushless motorization combined with ball screws, while the sliding on linear guides with ball runner blocks, the protection of the moving parts with PVC bellows, and a centralized lubrication system, guarantee quality and precision over time.

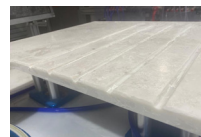

The numerical controls used are from the main world manufacturers, the software development (CAD / CAM), and the customization of the functions is guaranteed by a staff of engineers who also have the task of ensuring a constant training and assistance service.

4 AXIS MONOBLOCK CNC - DIGIMILL

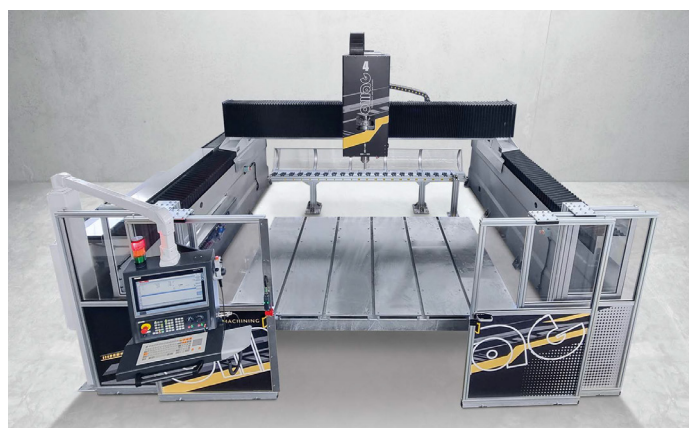

T Axis Accessory
For inclined recess drainers

Groove Wheel Holder
For making drainer grooves

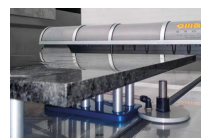

Tool Magazine
Tool magazine behind with 22 position.

4 AXIS CNC - MILL4

Renishaw Reader
Renishaw reader to check the profile, diameter and length of the tool.

Vacuum Cups
Set of double-acting vacuum cups.

Tool Magazine
Tool magazine behind with 22 position.

Marble System Available Available in Magnetic Heads

Product Code: 581

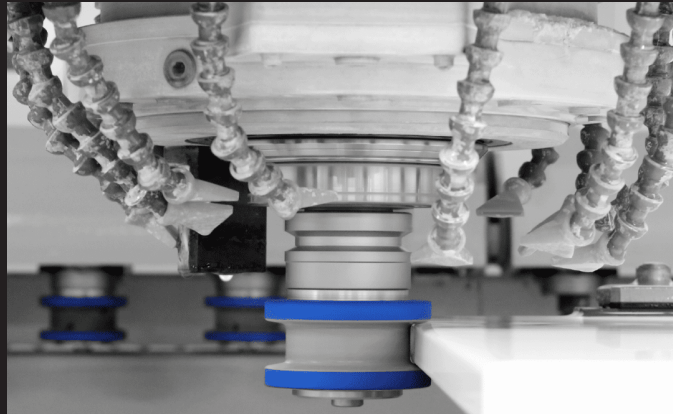

We offer a wide range of CNC tools to be used across all materials.

We are able to produce customise profiles and tools through our Italian partners.

A leading manufacturer metal-mechanical sector, specialising in manufacturing diamond tools for processing natural and synthetic stone.

Internationally acclaimed, the company boast the highest number of patents, utility models, and industrial designs in the stone industry, filed, extended, and confirmed on a global scale.

NICOLAI
D I A M A N T

One of the leading manufacturers of CNC tooling, selling worldwide, with years of experience and producing tools for traditional methods and always following the trends and needs of international markets.

Specialised electroplated tooling for marble, sandstone & limestone. Manufactured in Carrara, Italy, using a high concentration of diamonds for longer life and better performance. Customised profiles and tools are available upon request.

GS
DIAMANT
DIAMOND TOOLS

A CNC tooling manufacturer that has been making customised and specialised tools for over 20 years in Italy. Tools can be made from a drawing and for a variety of materials, such as Granite, Dekton & Taj Mahal.

Wet Polishing Pads for Granite

Product

Transparent Liquid Glue - ICR Sprint

Flowing transparent glue for marbles and stones based on polyester resin. Especially suitable for invisible repairing and artistic precision jobs. Can be easily coloured by the addition of paste pigments. Glue comes with hardener.

750ml

Product Code: 160

Solid "Water-Clear" Glue - ICR Sprint Polycrystal

Polyester colourless. For marbles, stones and granites, based on polyester resins. Its main feature is to be totally colourless and permanently light-resistant. Especially suitable for invisible repairing and artistic precision jobs; cementing and filling jobs of white marbles, without forming halos; treatment of travertine slabs and for filling up the hollow parts, without altering their aesthetic features. Glue comes with hardener.

750ml

Product Code: 169

Solid "Water-Clear" Glue - ILPA Jolly Glass

Polyester colourless. For marbles, stones and granites, based on polyester resins. Its main feature is to be totally colourless and permanently light-resistant. Especially suitable for invisible repairing and artistic precision jobs; cementing and filling jobs of white marbles, without forming halos; treatment of travertine slabs and for filling up the hollow parts, without altering their aesthetic features. Glue comes with hardener.

1Kg

Product Code: 523

Vertical Epoxy Glue for Vertical Use - ICR Sprint R5A/B

Specialised stronger solid epoxy glue

Available in transparent, which can be further colour enhanced using the traditional paste pigments.

It is recommended to be used for external or internal purposes and mainly for mitring. Both parts need to be purchased to work.

1KG - R5A

1KG - R5B

Product Code: 301

Epoxy Glue for Porcelain - ICR SPRINT IRIDIUM

Specialised glue for Dekton and other porcelains. Structural adhesive based on epoxyacrylic resins in styrene monomer. It is distinguished by fast hardening, excellent surface drying and excellent adhesion on stones

750ml

TRANSPARENT

WHITE

Product Code: 212

Epoxy Glue for Variety of Stones - ILPA Uranium

URANIUM is a mastic based on special combined unsaturated polyester resins, used for gluing, laminating and coupling marble, granite, quartzite, agglomerates and ceramics. It also has good adhesion on agglomerates of quartz, wood and concrete with good resistance outdoors.

Quick hardening - Excellent surface drying - can be coloured using SPRINT paste pigments for glue.

Glue comes with hardener.

TRANSPARENT 1Kg

Product Code: 524

Polyester Resin Hardener – ICR Sprint

Extra hardener to be used with all solid and transparent glue.

Product Code: 163

Liquid Wax - ICR Sprint Glossy

Liquid wax for marbles, stones and granites. Easy application, high efficiency. Offers an all special gloss and is especially meant to give a mirror-like look to surfaces already polished. Is light resistant, water proof, non-yellowing and resistant to acids.

Product Code: 166

Self-Polishing Varnish - Ilpa Extra-LUX

Is a self-polishing varnish that gives a long-lasting gloss effect to the treated surface. In addition, to give the perfect polish, EXTRA LUX creates "wet effect" enhancing the original colour of the stone, increasing brilliance and also water repellency.

The application can take place on materials such as marble, granite, synthetic marble, and light and dark stones in indoor and outdoor environments.

Product Code: 531

Bulk
Product

Silicon Wax - ILPA Brillo

Brillo is a silicone based wax. It is excellent for the maintenance of marbles, granites and natural stones, also suitable to protect kitchens and bathrooms from dirt and smog. The components of its formula carry out a triple action on the treated stones. Brillo cleans both grease and smog, polishes and shows up any stone's colours and veins, finally it waterproofs from oil, wine and water stains

Product Code: 173

Brick Polishing Wax

A polishing compound for marble and granite, white is suitable for lighter materials, and black for darker materials. To be used with felt mop.

Product Code: 167

Stick Wax

Hot filling wax that is used to fill imperfections in all types of marble or granite

Clean Air. Clean Workspace. **Clean Results**

When it comes to stone fabrication, maintaining a clean and safe working environment is just as important as precision cutting. That's why we proudly supply a range of dust and water filtration systems from Italmecch – a leading name in stone workshop safety and cleanliness.

AIRBOX

The Italmecch Airbox is a versatile water-based dust collection system designed for efficient extraction of dust from materials like stone, concrete, glass, wood, and metals. Constructed with durable AISI 304 stainless steel and featuring brass self-purging spray nozzles, it ensures long-lasting performance with minimal maintenance. Its powerful dual motor-fans provide effective suction, while the atomized water curtain captures airborne particles, converting them into easily removable sludge. Ideal for workshops utilizing both dry and wet tools, the Airbox offers a compact and user-friendly solution for maintaining a cleaner and safer working environment.

AIR DOMINO

The Italmecch Air Domino is a high-efficiency dry dust suppression cabin designed for workshops handling materials like stone, concrete, glass, wood, and metals. Featuring water- and oil-proof filter sleeves and a PLC-controlled self-cleaning system, it ensures optimal performance with minimal maintenance. Its powerful fan motors and large front grid provide uniform suction across the entire surface, effectively capturing fine dust particles. Optional features include a bionic eye sensor for automatic operation, enhancing energy efficiency and filter longevity. The Air Domino offers a reliable solution for maintaining a clean and safe working environment.

MAGNUM

The Italmecch Magnum is a versatile, extendable dust suction arm designed to enhance dust extraction in workshops handling materials like stone, concrete, glass, wood, and metals. With an 8-meter reach and compatibility with both dry and wet dust collectors, it offers flexible positioning to capture dust directly at the source. Its self-supporting, maintenance-free design ensures silent operation and high maneuverability, making it an ideal solution for improving air quality and operator comfort in various industrial settings.

Slab Trolley Clamp - Abaco

Designed with self-locking jaws for manoeuvring stone slabs around the factory, or on the work site. The rubberised jaw and base protect slabs against chipping and scratching while transporting. The self-locking jaws' clamping strength is proportional to the weight of the slab, therefore the heavier the slab, the larger the clamping force. The trolley has 14" x 4" (350mm x 100mm) diameter pressurized wheels and a 5" Grip range: 10 - 100mm Loading capacity: 500kgs Length: 670mm Width: 563mm Height 490mm heavy duty swivel caster that increases stability and flexibility in narrow and on rough surfaces

Slab Trolley Clamp

Product Code: 202

Carry Clamps - Abaco

They are designed for safely lifting and transporting stone slabs without using a forklift truck. The fully vulcanized rubber pads provide added grip and prevent damage to the slabs. The weight of the slab exerts a sufficient clamping force for such a simple lifting device.

Grip range 0-40mm | Dimensions : 240 x 120 x 285 mm

Lifting capacity per pair 200 kg

Pair

Product Code: 203

Slab Wedge - Abaco

Minimise the likelihood of worker injuries while moving slabs more efficiently. The Slab Wedge can create an ideal space between the slabs to place the lifting out of the fall shadow zone. This safety tool helps promote safety in the workplace.

Length: 120mm Width: 63mm Height: 255mm Net Weight: 0.4kg

Slab Wedge

Double Suction Lifter - Abaco

Two 120mm diam suction cups

Aluminium handle powdered coated black

High quality rubber for extended life

Box of 1

Product Code: 211

Flat Vacuum Cups For Kitchens Tops - Abaco

With the seam setter, your counter-tops will be perfectly joined & level. With 2 large 200mm suction cups, the seam setter is strong enough for the required task

Flat Vacuum Cup

Product Code: 205

One Stop A-Frame - Abaco

The One Stop A-Frame is designed for transporting material and storing it in the shop or at the job site. Your slab/glass sheets are placed on special rubber profiles and secured with four (4) ratchet securing bars. The centre section can be used to store tools, small back splash. The frame features two (2) eyelets that can be used to lift the frame with an overhead crane. Space is provided on all base sides for forklift transport. Quick release mounting pins change the unit from a mobile A-frame to a stationary A-frame

Product Code: 209

Demountable Frame - ADF4932 - Abaco

The sturdy design of the Abaco Demountable Frame (ADF4932) prevents material from chipping off and keeps the finished work high off the ground. Black rubber strips are mounted on the bottom and back support to prevent slippage. It has 4 ratchet straps to hold loads steady. It also features 2 eyelets on the top bar and a double bar base with wide slots that fit perfectly for lifting the frame with an overhead crane or forklift truck.

It has 4 solid casters for easy moving, two manoeuvred by the pulling handle. See the specification chart below for load capacity and dimensions.

Product Code: 533

Sink Support System - Abaco

Add support for sink cut outs during moving and installation

Versatile design uses twenty suction cups with two high strength support rails Suction cups move quickly and easily on the rails for adjustments

Add support for sink cut outs during moving and installation

Versatile design uses twenty suction cups with two high strength support rails Suction cups move quickly and easily on the rails for adjustments

Product Code: 229

Forklift Boom - Abaco

Designed for use on 2 & 2.5 Ton forklift trucks. With its telescopic boom it offers versatility with maximum visibility for the driver.

Fully extended it r1 pces up to 94.5" (2400Mm). Maximum load (when fully extended): 500 kg - length range - 1525-2400mm

Product Code: 207

Swivel Shackle - Abaco

The swivel shackle can be used with a forklift boom and a stone lifter. It gives the ability to rotate the lifting material 360°

Marmoelettromeccanica Master 3500 Profiling Machine

Portable electric contouring machine. Master 3500 is a portable electric contouring machine with "WATER SYSTEM" base plate which creates a gliding water film between the machine and the slab. This system immediately eliminates the stone pieces broken whilst working without scratching the surfaces. The Master 3500 machine is built with high-quality materials chosen between the best producers of rough materials.

Product Code: 6

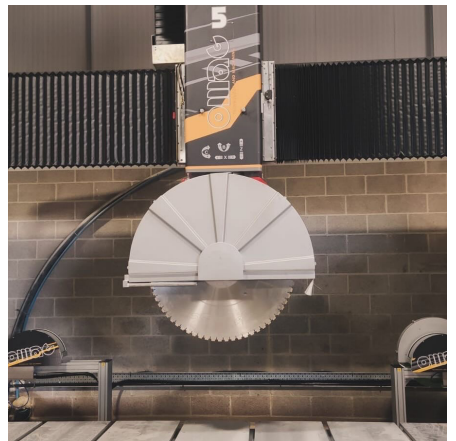

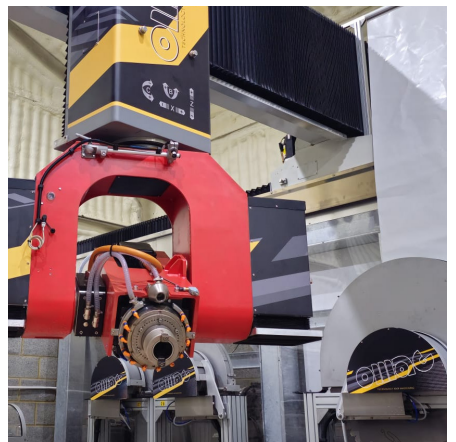

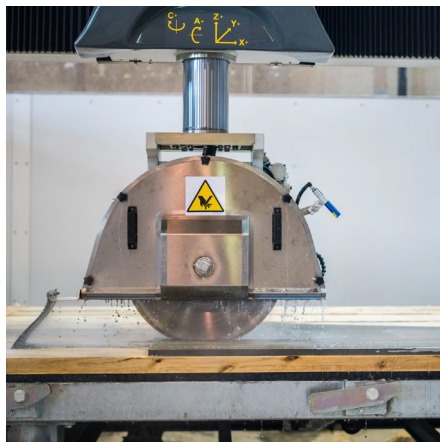

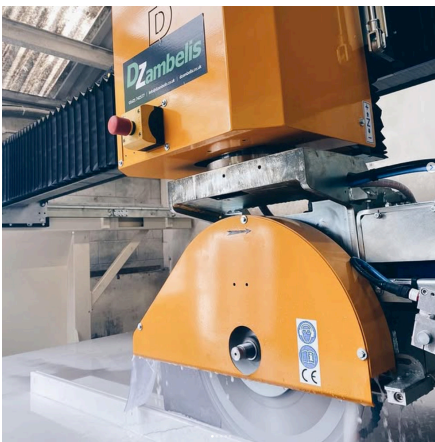

Marmoelettromeccanica Master 5000 Profiling Machine

With over thirty years of excellence in the field of stone processing machines, we are proud to introduce the Master5000, a revolutionary contouring machine that represents the pinnacle of our technological evolution. Designed to precisely contour, drill, and polish marble, granite, and other stone materials, the Master5000 blends the solidity of traditional methods with the latest technological innovations.

Want To Know About Our Machinery Aftercare?

Don't Hear It From Us, Hear It From Our Customers

Great aftercare and always professional, knowledgeable in problem solving. Always willing to go the extra mile even outside of working hours, a real pleasure to work with!

Almaz Worktops - Dennis

D Zambelis offers hands-down the best machinery assistance service I've ever experienced! Their team is fast, knowledgeable, and genuinely cares about getting the job done right. From troubleshooting to repairs, they've saved me time and stress—top-notch professionalism and expertise. Highly recommend to anyone needing reliable machinery support!

Granite Direct - Andrew

I have bought all my machines from D Zambelis including , cranes, edge polisher, bridge saws and CNC's! I trust them and they always put the customer first. Anything I need they are a Whatsapp message away.

Pisa Stone - Kasem

Everyone at D Zambelis is very helpful and always there to sort out any problems I have come across! Their team always gets back to me straight away and can normally make sense of my issues even if I can't. If D Zambelis can't sort the problem then they are fantastic at translating any issue to the people at OMAG assistance, who will soon sort any problem you might have!

Pack Masonry - Dan

Our recent help with our new CNC machine has been amazing. D Zambelis helped to bring in the parts quickly and sourced engineers to put it all back together. I am sure this would have been impossible without your help.

Windsmere Stone - Maciek
